Quality of item is great for being used. The condition of the item was as advertised. The price I paid was the best and fairest value. Even though the item was "Open Box", the appearance was like new. As requested, item was packed very well for shipping and delivery. "opus-equipment" ROCKS!!! with customer satisfaction. I will be purchasing from this seller again in the future. Strongly suggested to others.

I'd like to start off by saying I messaged the seller by asking, if the price could be lowered any... and his reply was refunding me a portion of the asking price that I payed in advance!!! The items were in the exact condition (appearance was like new) that was described and I received them (4Days) "before" date described! I would purchase from seller again with no hesitation at all & would highly recommend the same!!!

Item arrived in fine shape. Advertised as in excellent shape and I was not disappointed. Also said no box but it did ship in an original box. I won't be able to use it for about 30 days so I may take it to a buddy's house just to make sure it works but there should be no issues as it appears brand new. Shipping was fast and tracking provided. All good. Seller saved me about \$200 from new.

Seller packaged the item extremely well and it arrived perfectly as described. The seller made sure to accurately describe that there was an imperfection in the speaker housing and it appeared just as it had in the images. This seller was also selling the speaker for a very low price compared to other places I was looking at. Shipping was really quick too!

Great sound.

Excellent quality sound powered with a solid amplifier. A bit big for a desk but works out just fine if you have the real estate.

Used as a center channel

This is being used as a center channel speaker for home theater. Unlike many speakers, this Q series can be placed sideways and is far less expensive than the KEF Q250C. For my smaller viewing area it found great.

So far, so good.

I had visions in my head that i would be blown away by these. Some songs sound awesome, others don't so much. Need more time with them, only have a couple of hours on them so far.

KEF Q150's Great Soundstage

They have a Great SoundStage. Vocal sound as if the Singer is in the Room. The sign of a great neutral speaker..well recorded music sounds Fantastic poorly recorded sounds so so!
